

JJWILD CONSULTING SERVICE OFFERINGS

*Consulting Services
Exclusively Designed for
the MEDITECH
Community*

JJWild's consulting services are designed specifically for the MEDITECH community. We differentiate ourselves from other consultancies on the basis of our exclusive dedication to MEDITECH hospitals and our ability to provide a unique and comprehensive solution optimizing people, process, and technology. Our leadership in the design and integration of technology and infrastructure solutions, combined with our deep expertise in MEDITECH's application portfolio, helps healthcare organizations improve the efficiency and quality of their operations.

JJWild currently employs 70 consultants comprised of former CIOs, RNs, Pharmacy Technicians, Laboratory Managers, Supply Chain Managers, and others with years of healthcare and MEDITECH experience. JJWild is committed to helping our clients plan, assess, implement, and optimize their MEDITECH HCIS while considering the culture, budgets, and resource constraints within each organization.

JJWild's consultants have expertise in the following areas:

Customer Testimonials

“JJWild was a welcome addition to our team, working closely with our staff to keep the project on track, augment our knowledge base, and ensure user buy-in.”

- Jean Soong, RN, Clinical Project Coordinator, Good Samaritan Hospital, California

“As a new client with JJWild, I cannot offer enough praise about them. From the negotiation process through the implementation process, JJWild has exceeded all expectations. The JJWild team has become more than a vendor, but an extension of our hospital team.” - Robert C. Walker, CHP, Chief Information Officer, Carteret General Hospital, North Carolina

“We found that JJWild had a great combination of IT competence and MEDITECH familiarity. They are easy to work with and—when issues have arisen—we’ve been able to solve the problems together. I don’t think there is a better choice.”

- Rinn Evans, Chief Information Officer, Marion General Hospital, Indiana

“As we developed our relationship with MEDITECH they introduced us to JJWild. As a sole-source, one-stop partner, JJWild was very helpful with the products and services they brought to the table and their assistance in the install process. We had an array of items to deal with and JJWild was instrumental in advising us on all those issues.”

- Greg Stock, Regional CEO, Thibodaux Regional Medical Center, Louisiana

“JJWild and HCA International worked collaboratively to identify criteria that would ensure success of the multiple initiatives, the most important of which was the establishment of a self-sustaining MEDITECH support structure within the organization and across all facilities. Together, we developed a three-phase approach that embraced the JJWild “Power of MEDITECH” methodology and supported the direction defined by the hospital.”

- Clare Smallman, Director of Information Services, HCA International, London
